

Jordan Petroleum Refinery Company Material Safety Data Sheet SYNTHETIC SHPD 16

NFPA: Flammability

HMIS III:

Flammability	1
Health	3
Reactivity	0

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name: SYNTHETIC SHPD 16 (10W/40)

Product Use Description: For use in the highest powered naturally

aspirated and turbocharged automotive diesel engines, operating under the toughest conditions, especially engines operating under conditions conductive to

cylinder-bore polishing.

Company Jordanian Lube oil Manufacturing Co.

company of JPRC group.

Amman – Jordan.

TEL: + 962 6 4630151 or 4657600 FAX: + 962 6 4657934 or 4657939 P.O.BOX: 3396 Amman 11181 – Jordan P.O.BOX: 1079 Amman 11118 – Jordan Website: http://www.jopetrol.com.jo E-mail: addewan@jopetrol.com.jo

SECTION 2. COMPOSITION / INFORMATION ON INGREDIENTS.		
base oils	Virgin GIII	
DI additives		
VII		
PPD		

SECTION 3. HAZARDS IDENTIFICATION

Hazardous identification

US OSHA hazard communication Product assessed in accordance with standard for base oils: OSHA 29 CFR 1910.1200 & determined

to be hazardous

Effects of over exposure: no significant

effects expected.

Emergency response data: black semi -

solid. Dot ERG NO.- NA

SECTION 4. FIRST AID MEASURES

First Aid Measures:

Eye Contact Flush thoroughly with water for at least

15 min. If irritation occurs, call a

physician

Skin contact Wash contacts areas with soap & water

Get medical attention if irritation

developed.

Inhalation If inhaled, remove to fresh air. If not

breathing, give artificial respiration. If breathing is difficult, give oxygen. Get

medical attention immediately.

Ingestion If affected person is fully conscious, give

one glass of water to drink. Never give anything by mouth to an unconscious person. Get medical attention if

symptoms appear.

SECTION 5. FIRE-FIGHTING MEASURES

Fire- Fighting Measure

Extinguishing media: Carbon dioxide, foam, dry chemical, and

water fog.

Special fire fighting procedures: Water or foam may cause frothing. Use

water to keep fire exposed containers cool. Water spray may be used to flush spills away from exposure. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water

supply.

Special protective equipment: For fires in enclosed areas, fire fighters

must use self-contained breathing apparatus (SCBA) and full turnout gear.

Unusual fire and explosion hazards

Storage tank headspace may contain

NFPA hazard ID

Hazardous decomposition products

flammable atmosphere.

Flammable limits- LEL: NA, UEL: NA. Health: 3, Flammability: 1, Reactivity: 0 Carbon monoxide, carbon dioxide, some metallic oxides.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Accidental Release Measures

This material if slippery might cause traffic accident. If split on road, it must be cover with sand immediately. in the event of a spill or leak or accident person not wearing protective equipment & clothing should be restricted from contaminated areas until clean up has been completed.

the following steps should be undertaken following a spill or leak:

- 1- Notify safety personal.
- 2- Remove all sources of heat and ignition.
- 3- Ventilate potentially explosive atmospheres.
- 4- Do not touch the spilled material; stop the leak if it is possible to do so without risk.
- 5- Use water spray to reduce vapors; do not get water inside container. Do not flush waste to sewers or open waterways.
- 6- For liquid spills, cover with sand and then remove for later disposal.
- 7- Prevent spills from entering storm sewers or drains.

Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment (see section 8). Follow all fire-fighting procedures.

Personal precautions

SECTION 7. HANDLING AND STORAGE

Handling:

Avoid contact with eyes, skin and clothing. Keep container closed. Use only with adequate ventilation. Avoid breathing vapor or mist. Wash thoroughly after handling.

Storage

Keep container tightly closed. Keep container in a cool, well-ventilated area. Store away from strong oxidizing agents

or combustible material.

IMO Class>

not regulated as dangerous

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure controls/ personal protection

Respiratory protection No special requirements under ordinary

conditions of use and adequate

ventilation.

Skin and body No special equipment required. However,

good personal hygiene practices should

always be followed.

Hands Use chemical resistant apron and / or

other clothing to protect against hot liquid

& to avoid skin contact

Eyes Normal industrial eye protection practices

should be.

Engineering controls Provide exhaust ventilation or other

engineering controls to keep the airborne concentrations of vapors below there

respective threshold limits value.

Occupational exposure limits

Exposure limit of SN 500, SN 150 for oil 5.00 mg/m³

mist:

mist.		
SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES		
Form:	Liquid	
Appearance:	Bright and Clear.	
VI for 10W/40:	135	
Flash point	230 °C (COC)	
Pour Point	-42 ° C	
Density	0.870	
BN	12.0	
Sulfated Ash	1.2 WT%	
Kinematic viscosity	13.5 centi-stock @ 100 ° C Test Method ASTMD 7042	
GEORGALIA GELDUITELLAND DEL GENTUENI		

SECTION 10. STABILITY AND REACTIVITY

Stability: The product is stable.

Material to avoid: Strong oxidizing

Condition to avoid: Extreme heat.

Hazardous decomposition products: Sulphur oxides. Hydrogen sulphide.

Carbon monoxide.

SECTION 11. TOXICOLOGICAL INFORMATION

Routes of Entry Skin, Eyes, Ingestion, and Inhalation

Acute Effects

Inhalation Irritating to respiratory system.

Ingestion Not determined.

Skin contact Non-irritating to the skin.

Eye contact Irritating to eyes. LD_{50} >2000 mg/kg

SECTION 12. ECOLOGICAL INFORMATION

Environmental Fate and effects:

This product is expected to be inherently biodegradable. There is no evidence to suggest bioaccumulation will occur. It is not expected to be toxic to aquatic organisms. Accidental spillage may lead to penetration in the soil and groundwater. However, there is no evidence that this would cause adverse ecological effects.

SECTION 13. DISPOSAL CONSIDERATIONS

Waste disposal

Product is suitable for burning in an enclosed, controlled burner for fuel value or disposal by supervised incineration. Such burning may be limited pursuant to the resource conservation and recovery Act. In addition, the product is suitable for processing by an approved recycling facility or can be disposed of at an appropriate government waste disposal facility. Use of these methods is subject to user compliance with applicable laws and regulations and consideration of characteristics product at time disposal.

RCRA Information

The unused product, in our opinion, is not specifically listed by the EPA as a hazardous waste (40CFR, Part 261D), nor is not formulated to contain materials which are listed hazardous wastes. It does not exhibit the hazardous characteristics of ignitability, corrosively, or reactivity and is not formulated with contaminants determined by the **Toxicity** as Characteristic Leaching Procedure (TCLP). However, used product may be regulated.

SECTION 14. REGULATORY INFORMATION

Risk Phrases: R38-Ittitating to skin.

DI package: R41-Risk of serious damage to eye.

R51/53-Toxic to aquatic organisms may cause long-term adverse effects in the

aquatic environment.

R50- Very toxic to aquatic organisms R50- Very toxic to aquatic organisms. R62-Possible risk of impaired fertility.
